UNITED HUNTER OIL & GAS CORP.

Notes to the condensed interim financial statements

March 31, 2015 and 2014

(Expressed in Canadian dollars)

1. Nature of Operations and Continuance of Business

United Hunter Oil & Gas Corp. (the "Company") is a public company engaged in the exploration and development of oil and gas properties. The Company owns a 65% indirect joint venture interest in Excelaron, LLC ("Excelaron") and a 25% joint venture interest in Alamo Creek Oil LLC ("Alamo Creek"), both exploration stage companies based in San Luis Obispo, California.

The Company was incorporated under the Business Corporations Act of Ontario on February 22, 2008 and its registered office is located at Suite 615, 700 West Pender Street, Vancouver, British Columbia, V6C 1G8.

These financial statements have been prepared on the going concern basis, which assumes that the Company will be able to realize its assets and discharge its liabilities in the normal course of business. As at September 30, 2015, the Company currently has no assets or operations that generate revenue and has an accumulated deficit of \$11,184,723. The continued operations of the Company are dependent on its ability to generate future cash flows or obtain additional financing. Management is of the opinion that sufficient working capital will be obtained from external financing to meet the Company's liabilities and commitments as they become due, although there is a risk that additional financing will not be available on a timely basis or on terms acceptable to the Company. These factors indicate the existence of a material uncertainty that may cast significant doubt on the ability of the Company to continue as a going concern. These financial statements do not reflect any adjustments that may be necessary if the Company is unable to continue as a going concern.

2. Significant Accounting Policies

a) Basis of presentation

These condensed interim financial statements have been prepared in accordance with International Accounting Standard 34. Interim Financial Reporting, using accounting policies consistent with International Financial Reporting Standards ("IFRS") and interpretations adopted by the International Accounting Standards Board.

The accounting policies used in these condensed interim financial statements are consistent with those disclosed in the Company's audited financial statements for the year ended December 31, 2014, except for changes in accounting policies resulting from the adoption of new accounting standards.

These condensed interim financial statements do not include certain information and disclosure normally included in annual financial statements prepared in accordance with IFRS and should be read in conjunction with the Company's annual financial statements for the year ended December 31, 2014.

These condensed interim financial statements were approved and authorized for issue by the Board of Directors on November 20, 2015.

These financial statements are presented in Canadian dollars, which is the functional currency of the Company. Previously, these financial statements were presented in United States dollars. On December 31, 2014, the Company changed its reporting currency to Canadian dollars. Refer to Note 12.

b) Use of Estimates and Judgments

The preparation of the financial statements in conformity with IFRS requires the Company's management to make judgments, estimates and assumptions that affect the application of accounting policies and reported amounts of assets, liabilities, revenues and expenses. Actual results may differ from these estimates. Estimates and underlying assumptions are reviewed on

UNITED HUNTER OIL & GAS CORP.

Notes to the condensed interim financial statements

(Expressed in Canadian dollars)

an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised and in any future periods affected.

Significant areas requiring the use of estimates include the recoverability of amounts receivable, impairment of investment in joint ventures, measurement of share-based payments, and deferred income tax asset valuation allowances.

The Company applies the use of judgment in determining the factors relating to its investments in joint ventures, including whether it is likely that future economic benefits would exceed net carrying values. The Company also applies judgment in the inputs used in the calculation of stock-based payments.

The application of the Company's accounting policy for Exploration Expense exists when activities have not reached a stage where technical feasibility and commercial viability can be reasonably determined. Factors such as drilling results, future capital programs, future operating costs, as well as estimated economically recoverable reserves are considered. If it is determined that an Exploration and Evaluation asset is not technically feasible and commercially viable and Management decides not to continue the exploration and evaluation activity the unrecoverable costs are charged to Exploration Expense.

c) Exploration expense

Costs incurred prior to obtaining the legal right to explore (pre-exploration costs) are expensed in the period in which they are incurred as exploration expense.

Costs incurred after the legal right to explore is obtained, are initially capitalized, if it is determined that the field/project is not technically feasible and commercially viable and the Company decides not to continue the exploration and evaluation activity, the unrecoverable accumulated costs are expensed as exploration and evaluation expenses.

d) Accounting Standards Issued But Not Yet Effective

A number of new standards, and amendments to standards and interpretations, are not yet effective for the period ended September 30, 2015, and have not been applied in preparing these financial statements.

- IFRS 9, *Financial Instruments* (New)
- IFRS 10, *Consolidated Financial Statements* (Amended)
- IFRS 11, *Joint Arrangements* (Amended)
- IFRS 12, *Disclosure of Interests in Other Entities* (Amended)
- IAS 16, *Property, Plant, and Equipment* (Amended)
- IAS 27, *Separate Financial Statements* (Amended)
- IAS 28, *Investments in Associates and Joint Ventures* (Amended)
- IAS 32, *Financial Instruments: Presentation* (Amended)

The Company has not early adopted these revised standards and is currently assessing the impact that these standards will have on the financial statements.

Other accounting standards or amendments to existing accounting standards that have been issued but have future effective dates are either not applicable or are not expected to have a significant impact on the Company's financial statements.

Alamo Creek

The Company owns a 25% joint venture interest in Alamo Creek which has leased 4,068 acres (“Porter Ranch”) adjacent to the Santa Maria Basin, which is south east of the Company's Huasna property. Effective June 30, 2012, the Company declined to pay its share of a cash call and its joint venture interest in Alamo Creek was reduced from 45% to 25%.

As at December 31, 2014, the Company reviewed the investment for indication of impairment and noted continuing equity losses in operations, the decline in market prices for oil and gas, and the market capitalization of Alamo was higher than their net assets. Based on these and other factors, the Company recorded an impairment loss of \$27,675 (2013 - \$nil) on their investment in Alamo Creek.

Excelaron

The Company holds an indirect 65% joint venture interest in Excelaron, which holds a 100% interest in an oil and natural gas property consisting of 260 acres on the western edge of the Huasna Basin, an existing California Department of Oil, Gas and Geothermal Resources designated oilfield within the Meridian Anticline located in Arroyo Grande, California. Huasna is subject to a 5% assignable gross overriding royalty payable on all amounts received directly or indirectly by the Company that can be attributed to the Company's 65% joint venture interest in Excelaron.

3. Investment in Joint Ventures (continued)

Excelaron (continued)

The planned exploration and development of Huasna requires Excelaron to secure necessary permits from regulatory authorities. As at December 31, 2014, the Company had accrued \$928,080 (US\$800,000) as consideration payable for amounts that the Company will be required to payout to Excelaron for future exploration and development cost related to the investment once the required permits have been secured.

During the year ended December 31, 2014, after several years of Excelaron being denied the required permits and filing unsuccessful legal actions to overturn the denial, the Company has decided to write-down its investment in Excelaron resulting in the Company recognizing an impairment of \$3,742,916 (2013 - \$nil) which consists of the carrying value of the investment of \$4,670,996 offset by a reversal of the consideration payable of \$928,080 that will not be required to be paid out as the required permits have not been obtained.

Statements of loss for Excelaron:

- (d) During the nine months ended September 30, 2015, the amount of \$168 (2014 - \$241) was recognized as stock-based compensation for the vesting of stock options granted to directors and officers of the Company.

7. Share Capital

Authorized: Unlimited number of common shares without par value

- (a) On June 30, 2014, the Company effected a share consolidation on the basis of one new common share for ten old common shares. All share and per share numbers have been retroactively restated for all periods presented.
- (b) On September 2, 2014, the Company completed a private placement of 20,000,000 common shares at \$0.05 per share for gross proceeds of \$1,000,000. In connection with the private placement, the Company incurred share issuance costs of \$7,100.
- (c) On December 15, 2014, the Company issued 400,000 common shares with a fair value of \$24,000 to settle debt owed to the President of the Company.

8. Stock Options

The Company has implemented a stock option plan pursuant to which stock options may be granted to directors, officers, employees and consultants of the Company to a maximum of 10% of the issued and outstanding common shares of the Company. The exercise price of each stock option will be equal to the market price at the date of grant but can be discounted as permissible by TSX Venture Exchange policy. Stock options are exercisable over periods up to five or ten years and vesting periods can be imposed at the discretion by the Board of Directors.

10. Financial Instruments

(a) Fair Values

Assets and liabilities measured at fair value on a recurring basis were presented on the Company's statement of financial position as at September 30, 2015 as follows:

	Fair Value Measurements Using			Balance at September 30, 2015 \$
	Quoted prices in active markets for identical instruments (Level 1) \$	Significant other observable inputs (Level 2) \$	Significant unobservable inputs (Level 3) \$	
Cash	85,292	–	–	85,292

The fair values of other financial instruments, which include amounts receivable, accounts payable and accrued liabilities, loans payable, and consideration payable approximate their carrying values due to the relatively short-term maturity of these instruments.

(b) Credit Risk

Financial instruments that potentially subject the Company to a concentration of credit risk consist primarily of cash and amounts receivable. The Company limits its exposure to credit loss by placing its cash with high credit quality financial institutions. Amounts receivable consists of Goods and Sales Tax refunds due from the Government of Canada. The carrying amount of financial assets represents the maximum credit exposure.

(c) Foreign Exchange Rate Risk

The Company operates in Canada and United States, but has the majority of its cash held in Canada in Canadian dollars. Future exploration programs may be denominated in US dollars. Foreign exchange risk arises from purchase transactions as well as financial assets and liabilities denominated in these foreign currencies.

The Company does not use derivative instruments to hedge exposure to foreign exchange rate risk. However, management of the Company believes there is no significant exposure to foreign currency fluctuations due to the limited number of transactions conducted in the United States dollar.

(d) Interest Rate Risk

The Company's cash may contain highly liquid investments that earn interest at market rates. The Company manages its interest rate risk by maximizing the interest earned on excess funds while maintaining the liquidity necessary to fund daily operations. Fluctuations in market interest rates do not have a significant impact on the Company's results of operations due to the short term to maturity of the investments held.

(e) Liquidity Risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due. The Company currently settles its financial obligations out of cash. The ability to do this relies on the Company raising equity financing in a timely manner and by maintaining sufficient cash in excess of anticipated needs.

(f) Price Risk

The Company is exposed to price risk with respect to commodity prices. The Company's ability to raise capital to fund exploration and development activities is subject to risks associated with fluctuations in the market price of commodities.

11. Capital Management

The Company manages its capital to maintain its ability to continue as a going concern and to provide returns to shareholders and benefits to other stakeholders. The capital structure of the Company consists of cash and equity comprised of issued share capital and share-based payment reserve.

The Company manages its capital structure and makes adjustments to it in light of economic conditions. The Company, upon approval from its Board of Directors, will balance its overall capital structure through new share issues or by undertaking other activities as deemed appropriate under the specific circumstances.

The Company is not subject to externally imposed capital requirements and the Company's overall strategy with respect to capital risk management remains unchanged from the six months ended September 30, 2015.
