

## **United Hunter Oil & Gas Announces Porter Ranch Leasing Completed**

**Calgary, Alberta – May 6, 2011 – United Hunter Oil & Gas Corp. (UHO: TSX-V)** (“UHO” or the “Corporation”), is pleased to advise completion of leasing an additional 4,983 acres at the Porter Ranch in the Huasna Basin, onshore California. UHO’s percent of the leasing costs was \$27,224.60. The total number of acres leased for this project now stands at 9,051.

The Porter Ranch leases are held by Alamo Creek Oil LLC (Alamo) a Californian incorporated company, 45% owned and jointly operated by UHO, 45% by its Mankins Ranch partner Australian Oil Company and 10% owned by CALOG LLC (wholly owned subsidiary of AOC). The leases were last explored in the 1980’s by Philips Petroleum Company (PPC) who acquired seismic data, drilled one well and completed extensive roadworks and well pads for 2 well sites prior to abandoning due to PPC’s decision to withdraw from California completely.

Alamo is in process of acquiring 91 miles of 2D seismic data from PPC (now ConocoPhilips) which will be reprocessed and evaluated prior to drilling.

The Corporation is also pleased to announce that William Smith, CMA, has been promoted to the position of CFO effective May 5, 2011. The Corporation wants to thank Brad Griffiths for his work as CFO. Brad is stepping down from his position as CFO to give him more time to pursue other business ventures. He will continue to sit on the UHO board and is a member of the reserves and resource committee and the nomination and compensation committee.

Additionally, a total of 600,000 options were granted to directors, officers and employees of the Corporation. The stock option grants are all subject to regulatory approval. The options have an exercise price of \$0.15 per common share. The options will expire five years from the date of grant and will vest 1/3 per year for 3 years with the first 1/3 vesting upon grant.
